

## CARLOS ARANDA | RESUME

- » **Status:** Master in Computer Science and Engineering (UNAM) - Degree process
- » **Fields:** Computer Vision, Deep Learning, Image Processing, Data Analysis
- » **Tech:** Python, Git, Matlab
- » **Loves:** Videogames, Music, Crossfit and Cats

## »»» Summary

I am a computer science student in process of graduation, working on a stereoscopic computer vision project as thesis. During my studies, I collaborated in 2 congress papers, in the field of computer vision and deep learning, proposing novel methods for solving problems. I am looking for new development opportunities in Artificial Intelligence projects.

## »»» Experience

2015	<b>Production administrative intern</b>	Phoenix Group
	<ul style="list-style-type: none"> <li>» Recording of reports, and production indicators</li> <li>» Material balance</li> </ul>	
2016-2018	<b>Teacher</b>	ITSSNP
	<ul style="list-style-type: none"> <li>» Organizer of the first Basic Science Competition</li> <li>» Academy secretary</li> </ul>	
2018 - 2019	<b>Teacher</b>	UTTT
	<ul style="list-style-type: none"> <li>» Personal tutor of more than 80 students</li> <li>» Development and implementation of an automatic assistance voucher emissor</li> </ul>	

## »»» Education

2011-2016	<b>Degree in Chemical Engineering</b>	UNAM
	<ul style="list-style-type: none"> <li>» Thesis: Uso de Algoritmos Genéticos y Redes Neuronales para Control Predictivo en un Reactor Tipo CSTR</li> <li>» Developed a control system for a simulated chemical reactor</li> </ul>	
2019 - 2021	<b>Master Studies in Computer Science and Engineering</b>	UNAM
	<ul style="list-style-type: none"> <li>» Master Thesis: Sistema prototipo de monitoreo subacuático automático de peces por visión estereoscópica y aprendizaje profundo</li> <li>» Developed of an automatic fish detection and measurement prototype system</li> </ul>	

## »»» Publications and Congress

2021	<b>Congress presentation and publication</b>	COMIA 2021
	<ul style="list-style-type: none"> <li>» Presentation of the results of the master project</li> <li>» In publication process at the Research in Computer Science journal</li> </ul>	
2021	<b>Congress presentation</b>	ENC 2021
	<ul style="list-style-type: none"> <li>» Presentation of the project: Artery/Vein Classification of Retinal Vessels based on Cellular Automata</li> <li>» Proposed a novel method using neural cellular automata for image clasification applied on medical images</li> </ul>
